

Abdisa Waritu Ebiso Full Stack Developer

Portfolio | abdisawaritu4@gmail.com | [LinkedIn](#) | [GitHub](#) | Addis Ababa, Ethiopia

Professional Summary

Full stack developer experienced in building web applications with React, Node.js, Express, and MongoDB, PostgreSQL, and MySQL databases. Currently a Full Stack Developer Intern, building responsive interfaces, REST APIs with JWT authentication, and database-driven applications. Holds degrees in Electrical and Computer Engineering and Computer Science, and is completing an intensive AI-powered MERN full-stack program.

Education

B.Sc. in Electrical and Computer Engineering (Computer Stream) Addis Ababa, Ethiopia
Addis Ababa University

B.A. in Computer Science Addis Ababa, Ethiopia
CPU Business and Information Technology College

Full Stack Web Development (MERN) Program (Ongoing)
Evangadi Tech

- Ongoing 6-month intensive program in AI-powered full-stack web application development with MongoDB, MySQL, Express.js, React.js, and Node.js; building and deploying real-world projects.

Professional Experience

Full Stack Developer Intern, Alta Compu Tech Remote

- Build and maintain full-stack web application features using React, Node.js, Express, and MongoDB.
- Develop responsive user interfaces and backend APIs, connecting the frontend to the database.
- Collaborate remotely with the team to deliver features and resolve issues.

Backend Developer & Phase 2 Project Manager, Dinkenesh Event Management System (DEMS), AAU Addis Ababa, Ethiopia

- Developed backend functionality for a digital event management platform serving Addis Ababa University events.
- Managed phase 2 of the project, coordinating team members and overseeing delivery of the release.
- Worked closely with the project lead and developers on requirements, integration, and delivery.

Projects

Dinkenesh Event Management System (DEMS), Event Management Platform React, Node.js, PostgreSQL

- Full-stack platform for managing university events, covering event setup, user registration, and attendee management.

School Management System, Web Application Java, MySQL, React

- Web application for managing school records such as students, teachers, classes, and administration, with a React interface and a Java backend on a MySQL database.

Apple Website Clone, Responsive Web Application React, Node.js, Express, MySQL

- Responsive clone of the Apple website, built with a React frontend and a Node.js and Express backend connected to a MySQL database.

Skills

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, Python (Django), Java, REST APIs, JWT Authentication
- **Databases:** PostgreSQL, MongoDB, MySQL
- **Testing, Integrations & Tools:** Playwright, Chapa, Stripe, PayPal, Git/GitHub, Postman, Vercel, Render, Agile
- **Certifications:** Fundamentals of Data Science and Artificial Intelligence (GCI World); Fundamentals of Programming (Udacity, Five Million Ethiopian Coders)
- **Languages:** English (Professional), Amharic (Native), Afan Oromo (Native)
